| <input type="checkbox"/> Glitter | <input type="checkbox"/> Quick sprouting seeds | |

CORDUROY

Button Craft

Supplies:

- 1 large brown button
- 3 medium brown buttons
- 1 small brown button
- Clear-drying glue, permanent
- 2 googly eyes
- Small sheet of wax paper
(big enough for largest button)

Teacher Guidelines:

1. Take the large brown button and lay it on the wax paper.
2. Apply a small amount of glue to the back of a medium button and place it onto the lower half of the large button front.
3. Apply a small drop of glue to the bottom half of each of the remaining medium buttons. Secure them to the back of the button near the top for the ears. Let dry.
4. Glue the small button to the top of the "muzzle" on the front of the bear's face.
5. Finally, attach the small googly eyes just above the muzzle. Let dry completely.

MY SHADOW

Paint Resist With White Paint

Supplies:

- ½ piece of black construction paper (9" x 12" paper, cut in half to make it 9" x 6")
- 1 piece of contact paper, cut into a body shape, about 4" x 6" size. (You can use a die cut machine and doll die to cut out multiple person shapes.)
- white tempera paint
- paintbrush
- newspaper for craft area
- water and paper towels for cleanup

Teacher Guidelines:

1. Have an adult place the contact paper, sticky side down, on the piece of black construction paper.
2. Have the children use the paintbrush to cover the entire black piece of paper with white paint. Let the paint dry.
3. When the paint is dry, gently peel away the body shape to reveal its shadow.

THE RUNAWAY BUNNY

Bunny Made From Paper Plate

Supplies:

- | | |
|--|---|
| <input type="checkbox"/> 1 small (dessert) white paper plate | <input type="checkbox"/> black markers |
| <input type="checkbox"/> scissors | <input type="checkbox"/> small pink pom-pom |
| <input type="checkbox"/> glue dots | <input type="checkbox"/> 1 cotton ball |
| <input type="checkbox"/> white glue | <input type="checkbox"/> pink glitter |

Teacher Guidelines:

1. Have the children cut the paper plate in half.
2. On one half, draw the small black eye near the cut corner, and glue the pink pom-pom to the edge where the cut line meets the rounded edge of the plate. This will be the bunny's nose.
3. Draw on some thick black whiskers from the bunny's pink nose outward.
4. Glue the cotton ball to the opposite end of the body, as close to the edge as possible. This will be the bunny's tail.
5. With the discarded half of the plate, cut out two ear shapes from the crimped edges of the plate. This can be done free-hand with help from looking at the picture.
6. Use the glue dots to secure one ear (crimp side up) to the front of the bunny body (on the same side as the eye). Use another glue dot to secure an ear to the back side of the bunny, just a bit higher than the first ear (so both ears can be seen).
7. The children can add pink glitter to the center of each ear.
