These *Cursive Practice Sheets* are to be used as needed for students who are struggling with cursive after having completed *New American Cursive 1* or a similar cursive program. All instructions for teaching cursive can be found in the *New American Cursive* books. Refer to those as needed.

This workbook is not intended to be a comprehensive cursive course, but we have found that some students are still struggling to master basic letter formation when working in *New American Cursive 2* and need further practice to gain fluency in this area. This workbook should provide that needed reinforcement.
