These *Practice Sheets* are to be used as needed for older students who are struggling with cursive after having completed *New American Cursive 1 and 2*, *Teach Yourself Cursive*, or a similar cursive program. Sometimes, students need more practice to gain fluency in their cursive writing, and this workbook provides that needed reinforcement. All instructions for teaching cursive can be found in the *New American Cursive* books. Refer to those as needed. This workbook is not intended to be a comprehensive cursive course.
