Lesson 1

Teacher Guide

Background and Summary:

Moses has seen the Promised Land from Mount Nebo, but does not enter it. Instead, before he dies, he tells the people that Joshua will be their new leader. The 40 years of wandering in the wilderness are at an end, and the Israelites may now enter into Canaan. And so, The Rise of Israel begins here, just outside of the borders of Canaan, near the southeast side of the Jordan River.

At this time in history, Canaan was an area in the Middle East with many powerful cities and kingdoms. Joshua and the Israelites had to face these Canaanite peoples in order to win the Promised Land. The first city and kingdom to conquer was Jericho. The story of Jericho's Fall follows this basic order of events:

- Joshua sends two spies to the land.
- The spies lodge at Rahab's house.
- Jericho's king is aware of the spies, and commands Rahab to bring them out, but Rahab hides them.
- The spies promise to spare Rahab and her family because of her help.
- Joshua crosses the Jordan River and marches with the Ark around the city 7 days; on the last day, at the sound of shouts and horns, the walls fall and Jericho is taken.
- Rahab and her family is spared.

2. **parapet**: a wall, rampart, or elevation to protect soldiers, Latin *parare* + *pectus* ("breast-high defense")
3. **spoils**: goods and riches taken in war

Geography (for all lessons):

To orient students to the locations listed, first help them find the Eastern Hemisphere, Mediterranean Sea, and Israel on both a globe and a world map. Always go back and forth between a globe, world map, and smaller local map, so that students learn the specific locations for each lesson in relationship to the surrounding area.
