10 LITTLE RUBBER DUCKS

Thumbprint Ducks on a Pond

Supplies:

- 1 pond template, printed on white paper
- black and orange marker
- crayons
- water and paper towels for cleanup
- yellow washable ink

Teacher Guidelines:

1. To begin, let the children dip their thumb in the yellow ink and make 10 little thumbprints on the pond. These will be the 10 little thumbprints.
2. Use the orange marker to draw a small bill on each duck, and the black marker to draw on a small black eye and small feet.
3. After the ducks are done, let the children color the pond with the crayons.

ANDY AND THE LION

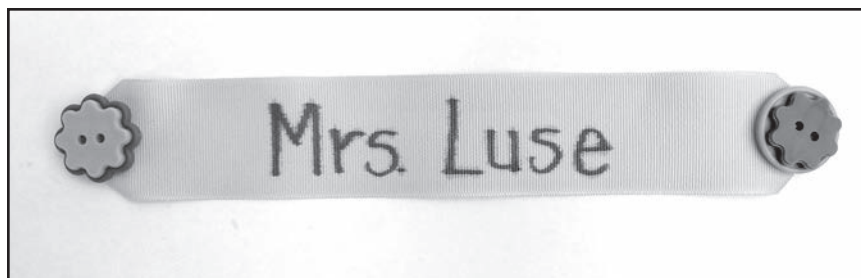

Making a Bookmark

Supplies:

- construction paper strip, measuring 3" x 6"
- decorations:** scrap paper, cut into various sizes and shapes, stickers, etc. (anything that will glue flat)
- crayons
- scissors
- glue
- hole punch
- paper hole reinforcement stickers
- length of ribbon or yarn, about 6"

Teacher Guidelines:

Give each child a bookmark. They can decorate it in any way they wish, with the only instructions being that the bookmark lay flat (nothing 3-dimensional glued on) and that the decorations stay within the boundaries of the edges of the bookmark.

AROUND THE YEAR

A Study of Seasons

Supplies:

- 1 seasons tree template, printed on light blue cardstock
- 1 unused pencil
- tempera paints: orange, white, light green, and dark green
- paper plate
- newspapers for workspace
- paper towels for cleanup

Teacher Guidelines:

1. Each child should have a copy of the tree template, and a paper plate with a bit of each color of paint on it. Working as a group, one tree at a time, the children should be instructed to use the eraser end of the pencil, dipping it in the appropriate color for the season.

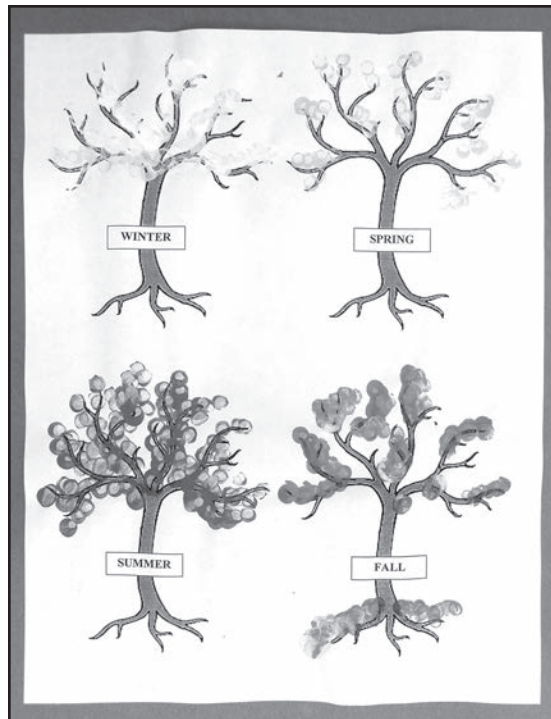

Winter: White

Spring: Light Green

Summer: Dark Green

Fall: Orange

2. They should stamp the pencil eraser with the paint on it around the branches of the tree until the tree looks like it has been decorated with colorful leaves (or snow). Wipe eraser off on paper towels between each color.

BARN DANCE

Building with Popsicle Sticks

Supplies:

- | | |
|---|--|
| <input type="checkbox"/> 1 piece of blue construction paper | <input type="checkbox"/> paper plate or newspaper for drying |
| <input type="checkbox"/> 1 barn template | <input type="checkbox"/> white glue |
| <input type="checkbox"/> scissors | <input type="checkbox"/> 2 popsicle sticks – cut in half |
| <input type="checkbox"/> white tempera paint | <input type="checkbox"/> 6 popsicle sticks – whole |
| <input type="checkbox"/> paint brush | <input type="checkbox"/> green crayon |

Teacher Guidelines:

1. Use the paint brush to paint all of the popsicle sticks white. Set aside to dry on newspaper or paper plate. Color the barn template red and cut it out of the paper, and glue it down (about an inch above the bottom of the paper). Use the crayons to draw the green grass around the bottom of the barn, and the ground
2. When the popsicle sticks are dry, glue the full-size sticks to the bottom of the large square. Next, about an inch in from either side of the bottom square (and perpendicular to the bottom stick), glue two more full-size sticks. These sticks should be a couple inches apart, and touching the bottom stick. This will be the barn door. Next, glue a full-size stick across the top of the newly glued door. To finish the door, draw an "X" across the barn door.
3. Use the halved sticks to glue to the barn roof's outline. Two sticks should be vertical, and two should be diagonal and touching in the center. Let all sticks dry completely before moving.
