☐ Tissue Paper in rainbow colors
☐ Coffee Filters
☐ Glitter Glue
☐ Bubble Solution
☐ Drinking Straws
☐ Push Pins
☐ Marbles
☐ Epsom Salt
☐ Baby Food Jars
☐ Floral Clay
☐ Glitter
☐ Hot Glue Gun and Glue
Creating Owls From Toilet Paper Rolls

Supplies:
- ☐ toilet paper rolls
- ☐ washable acrylic paint (any colors)
- ☐ paintbrushes
- ☐ construction paper in orange and any other colors for decoration
- ☐ scissors
- ☐ glue
- ☐ googly eyes

Teacher Guidelines:
1. To begin, fold half of the toilet paper roll down towards the center of the tube (about 1 inch in size). Fold the other side of the top down exactly the same way. Now, use the paint and paintbrush to cover the toilet paper roll completely with paint. Set aside to dry.
2. When the toilet paper roll is completely dry, cut a 1-inch triangle from orange paper for the owl’s beak and glue it about an inch down from the top of folded roll, pointing down. Next, glue on the googly eyes just above the beak.
3. Paint the owl’s breast as pictured. Set aside to dry.
4. Lastly, from any color construction paper, cut two 2-inch ovals (with drawn feathers) and glue them to the sides of the paper roll. Let dry completely.
STopping by Woods
On a Snowy Evening
Crayon Resist

Supplies:
☐ white heavy-weight cardstock
   or watercolor paper  ☐ paintbrush
☐ white crayon  ☐ bowl filled with water
☐ watercolor paint in very light
   blue and very light green

Teacher Guidelines:
1. Using the white crayon, draw a horizon line on the white paper. From the horizon line
down, use the crayon to color in the snowy bottom of the forest. From the horizon line
up, draw pine trees, bushes, etc.
2. When you have used your white crayon to add the snowy details to the picture, use the
blue watercolor paint to paint the area above the horizon line. Rinse your brush, and
use the green paint to paint the area below the horizon line. Set aside to dry.
